## PROFESSIONAL SUMMARY:-

Frontend Developer with 2+ years of experience building scalable, user-focused web applications using React.js, TypeScript, and Tailwind CSS. Adept in API integration, component architecture, and CI/CD pipelines. Passionate about delivering seamless digital experiences and collaborating within agile, cross-functional teams.

---

## TECHNICAL SKILLS:-

- **Core Development:** React.js, Redux Toolkit, React Router DOM, JavaScript (ES6+), Vite, TypeScript, Axios, Custom Hooks
  - **Styling/UI Libraries:** Tailwind CSS, HTML5, CSS3, Bootstrap
  - **Platforms & Tools:** Git, GitHub, Netlify, Vercel, Firebase
  - **Development Proficiency:** REST API Integration, Firebase Authentication, Responsive UI Design
- 

## PROFESSIONAL EXPERIENCE:-

### React.js Frontend Developer | Anubit Solutions, Pune

Dec 2022 – Currently

- Delivered 10+ responsive and scalable web applications using React.js, Tailwind CSS, and Vite, improving user engagement by 20% through mobile-first design and accessibility best practices..
  - Developed a shared library of reusable UI components and custom React hooks, accelerating development speed by 40% and ensuring UI consistency across projects.
  - Implemented CI/CD pipelines via GitHub Actions and Netlify, enabling automated deployments and reducing release cycles by 40% through instant preview builds and environment parity.
  - Collaborated with backend engineers, QA testers, and UI/UX designers in agile sprints to define API contracts and deliver features 2x faster with reduced bug rates.
  - Led weekly code reviews using GitHub pull requests and introduced ESLint and Prettier tooling, significantly improving code consistency and maintainability across the frontend team.
- 

## PROJECTS:-

### Corporate Website – Anubit Solutions [Link](#)

*React.js • Vite • Tailwind CSS • JavaScript • Strapi (Headless CMS)*

- Built a fully responsive landing page using component-driven architecture in React and Tailwind CSS, enhancing cross-device performance and SEO readiness.
  - Integrated Strapi CMS to dynamically render content, enabling marketing and non-technical teams to update site content without engineering support.
  - Engineered reusable UI components and custom layouts, reducing page development effort by 40% and aligning with design system standards.
  - Developed interactive UI elements such as animated carousels and responsive navigation bars, significantly improving user experience and engagement metrics.
-
